

EARTH DAY CELEBRATED IN NURSERY WING

Earth Day was celebrated with great enthusiasm in the nursery wing of SRDAV, Dayanand Vihar on April 21, 2011. Various activities were organized for the students of different classes. Pre school tiny tots made attractive trees using ice-cream sticks and pastel sheets. Pre- Primary and class I kids did sapling plantation in their classrooms and decorated the used coke and juice tins to be used as pots. Display boards were decorated with charts and quotations to educate children about their Mother Earth. All the students took pledge to save the environment by saving water and electricity, growing more trees and saying no to plastics. They also pledged to celebrate every day as 'EARTH DAY'. The activities helped to sensitize the students towards their environment and their responsibility to save it.
